Valencia

Final Thoughts

My top 3 favorite places were Barcelona, Cadiz and Seville.

I learned that I absolutely LOVE paella and hope to learn how to make it when I get back to the states.

I am glad that we were able to meet and work with the spanish UCLM students. They taught us a lot of the spanish culture outside the classroom.

Overall, the study abroad culture experience was outstanding. It helped me learn and understand more things about the culture and myself. The people that were in Spain also contributed to the experience and I am thankful they did.
