

STUDY ABROAD AIX-EN-PROVENCE

By: Olivia Watts

OUR HOME FOR A MONTH!

• I loved getting to know Aix and just walking around everyday. The people here are so nice, and the atmosphere is great! I also loved having my daily dose of gelato!! This is such a beautiful town, and a great place to study abroad!

FIELD TRIPS!!

The group trips were also a blast! The Calanques and Verdon Gorge were so pretty. I loved the boat ride in the Calanques!! Such pretty views and so many memories!

MORE FIELD TRIPS!

- Marseille was a little different than I was expecting, but I liked getting to know the history of the town and just walking around. I liked how we went on the day they had their market by the water. The little town, Rousillon was so cute. The views from anywhere were really cool!

CHAMONIX AND GENEVA

- We went to Geneva, Switzerland and Chamonix, a mountain town right on the border of France and Switzerland. These two places are so beautiful, especially Chamonix. We went hiking, and some of the group went parasailing! I love the mountains, so this was probably my favorite place that I went to. Oh, and when we were taking the train from Geneva to Chamonix, it split, and we were on the wrong half of the train! So , we ended up going in the wrong direction for an hour and had to take another train to get to Chamoinx. But, we made it!

NICE AND MONACO

- The beaches in Nice and Monaco were really nice. I loved just getting to relax for a few days. We also ended up in Monaco on the weekend of the grand prix!! So, we had a hard time getting around, as much of the city was occupied by the race. But, we still had a great time. And, I got to see one of my friends from high school who lives in Italy, and was in Monaco for the race! That was super fun!

☹️☹️IT'S OVER☹️☹️

• So many great memories, amazing food, and beautiful views!!! I am so happy I decided to participate in this study abroad program. It exceeded my expectations, and I would definitely do it again! I would describe this past month as a wonderful and unforgettable experience!!!
