

GREECE STUDY ABROAD

**CVEN 311
Chandler Gastelo**

WHY STUDY ABROAD

For Me:

- Great way to travel and learn about a different culture.
- Soft skill opportunities. Meet new people and make friends.
- Career Advancement by showing international experience and adaptability.
- Overall personal growth.

GREECE!

I studied in Thessaloniki, Greece for 3 weeks. I studied fluid dynamics. The class was a lot of fun. Dr. Oliverda did an amazing job with pacing of the class and interactions within the lecture. Beyond the class, it was amazing staying in Thessaloniki. Greece in general has it all. Ancient ruins, downtowns, great food, plazas, views, greenery, and the coast! Towards the end of the trip, we are going to Athens and I am sure it will be nothing short of beautiful. Within my trip, I also took a trip to Paros, Greece. Paros is a beautiful island with stunning beaches and the best food! Greece was worth it to meet classmates and locals, learn about and experience Greek culture, and advance my personal growth journey.

FOOD!

PORK GYRO

TRIGONA PANORAMATOS

PAN FRIED PORK WITH FETA CHEESE

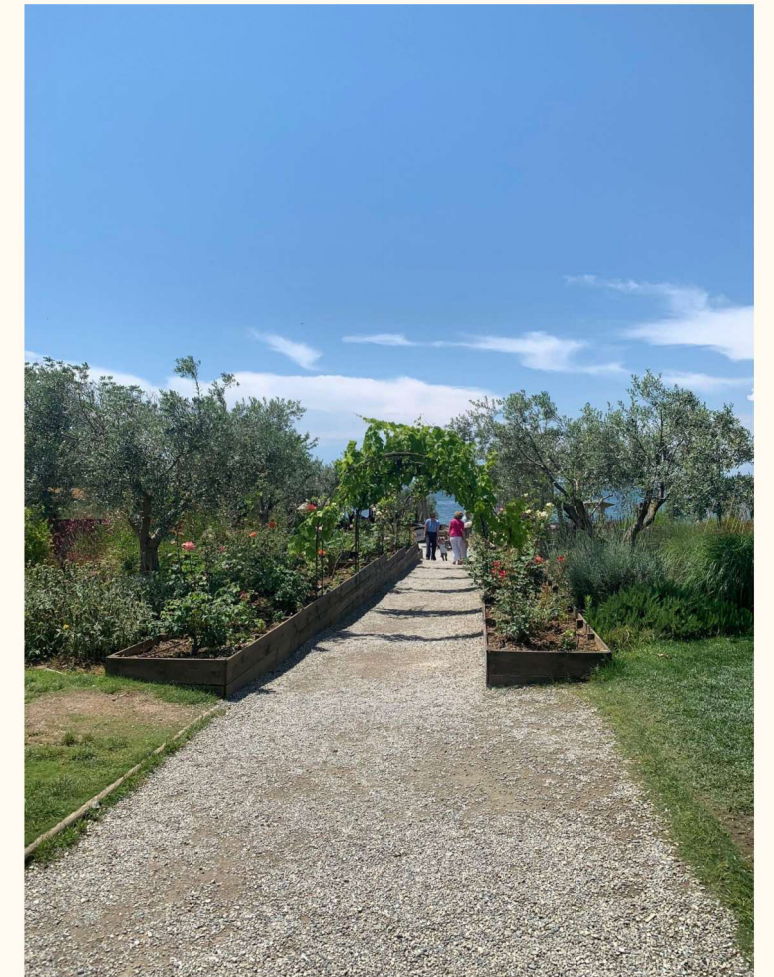

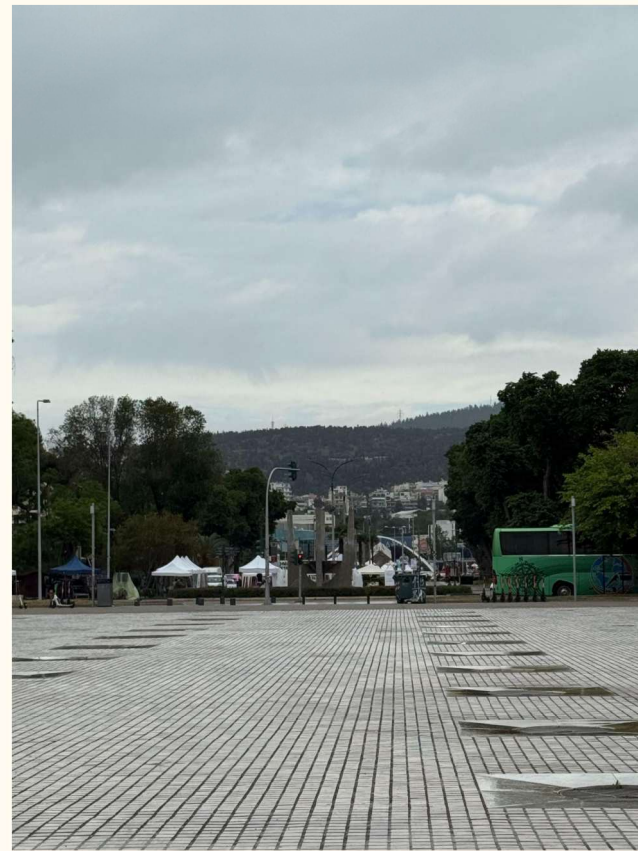

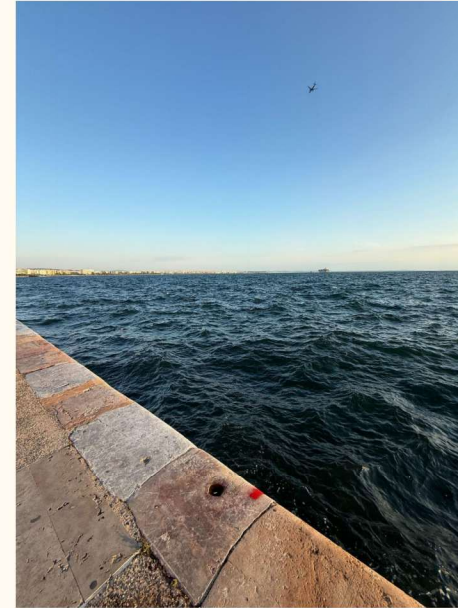

COOKING CLASS

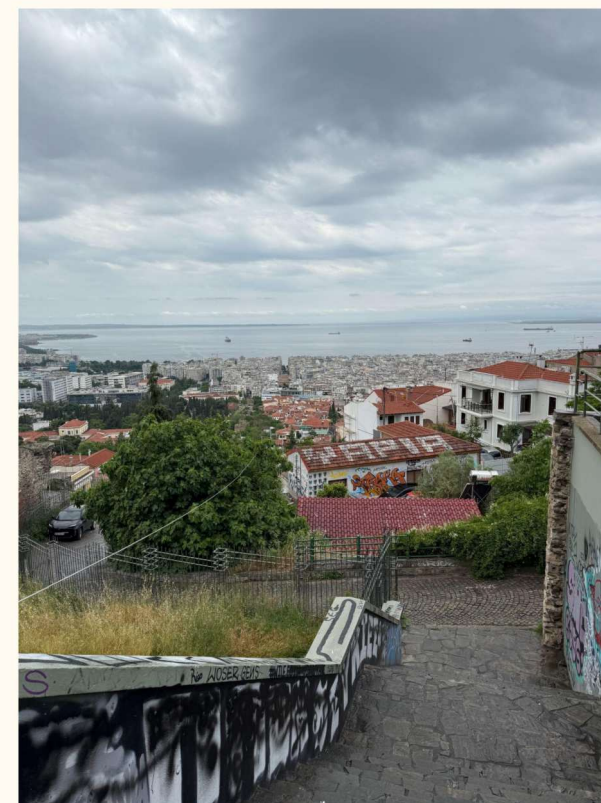

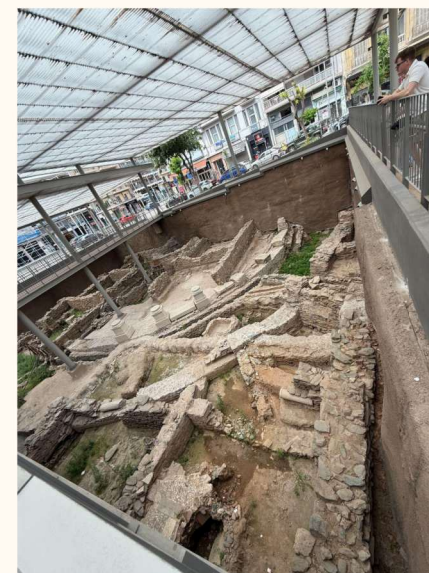

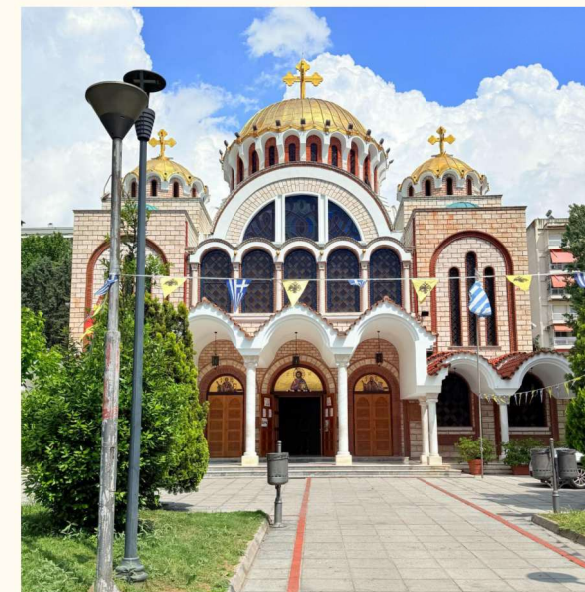

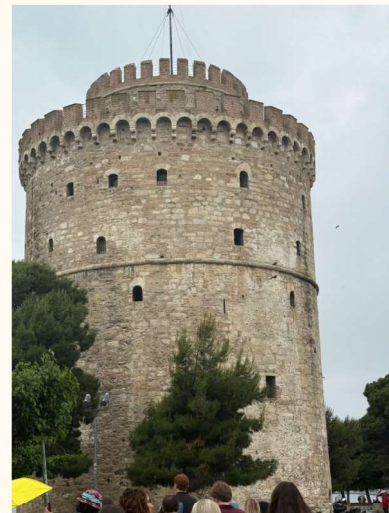

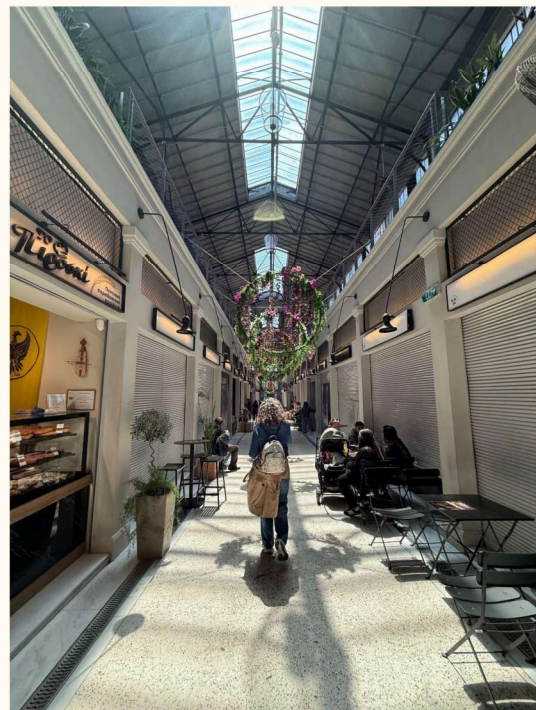

SUNSETS!

ATHENS/METERORA

ATHENS/METEORA

These last trips to Athens and Meteora were filled with beautiful sites and fun memories. I loved how much I got to see in Greece. I would definitely come back to explore and dive further into their history. I am truly grateful for this experience.
