Fluid Dynamics Study Abroad
Thessaloniki, Greece 2025

Tour of Thessaloniki

Learned that while they were building the metro, they accidentally uncovered a ton of ancient ruins underground. Thought it was wild that instead of just bulldozing through, they actually preserved everything and redesigned the metro around it. Kind of insane how much history is literally under your feet in this city.

EATS

Ate good the entire trip.

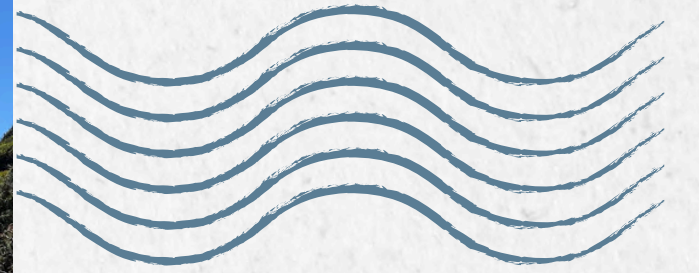

Cooking Class

Learned to make delicious Greek dishes (tzatziki, dolmas, spannakopita), with company! (Cat)

Took weekend trips to Skiathos Island, Lalira Beach, and the Mamma Mia chapel

Skiathos & Lalira Beach

Meteora & Athens

Had so much fun on this study abroad
and would highly recommend!
